

# 'Ensuring Performance and Accuracy'

**-Ravindra Patel, CEO, Excel Instruments**

products, viz., Pressure and Temperature Measuring Instruments.

Excel Instruments is a 5-year old company having certification of ISO 9001: 2015 and CE, though in very short span it is had recognised brand throughout India and been exporting 25% of its sale. It is the fastest growing company in the field of Process Control Instrumentation products (Pressure & Temperature), the manufacturing facility established in 2015, at Chhatral, Gujarat.

**Each pressure gauge is quality checked, tested and calibrated at well equipped in-house quality control laboratory.**

The company has vast and comprehensive in-house facilities for manufacturing of components for the instruments with a state-of-the-art facility for in-house checking/calibration for the entire range of products, to ensure customers get superior products. Each pressure gauge is quality checked, tested and calibrated at well equipped in-house quality control laboratory and supplied with relevant quality and test certificates.

## **What is the theme of your booth at Automation Expo 2018?**

Our theme will be 'Ensuring Performance and Accuracy', to provide best technology superior products with high quality services in-time delivery to achieve total customer satisfaction.

## **What are the products manufactured by the company?**

Today Excel Instruments is renowned for providing quality products, viz., Pressure Gauges (bourdon, diaphragm, capsule, low pressure, bourdon with glycerine filled, solid front, mud gauge, sanitary gauge, Schaffer diaphragm gauge, electric contact gauge, digital gauge, master gauge, Magnehelic gauge, gauge with external zero, single/double diaphragm type, bellow type differential gauge, piston type DP gauge), temperature gauges (bi-metal gauge, gas filled gauge, digital temperature gauge) RTD (Pt-100, Pt-1000 and Pt-500 type sensors, general use RTD, mineral insulated RTD, bearing temperature RTD, flame proof RTD, plastic industry RTD, surface temperature RTD, transition joint RTD, sanitary application RTD, RTD with nipple, union nipple, special tailor made RTD and thermocouples (J, K, R, S, R, B, T, E, N, general use, high temperature, plastic industry, motel metal, mineral insulated, mineral insulated with miniature socket) and accessories (syphon, gauge cock needle valve, thermowell, manifolds).
